'HONDA AIDS SCHOOLS'

Honda aids schools

TECHNOLOGY: Honda Group in Thailand has joined with Rajamangala University of Technology Srivijaya, Trang campus, in offering educational support to young people who recognise the importance of the environment and want to enter university to become scientists.

The programme provides students from the fourth and fifth School Environment projects, 2006-07 and 2008-09 respectively, with special privileges to further their education in the Science and Fishery Technology Faculty of Rajamangala University during the 2010 and 2011 academic years. A total of 20 students will be enrolled in the first year.
